ORGANIZE CHAMBER OF COMMERCE OF A GREATER CONNELLSVILLE.

Officers and Part of the Directors Chosen at Meeting Following Session of the Merchants' Association.

B. P. WALLACE HEADS CHAMBER

Suite of Rooms Will be Taken in the First National Bank Building and Another Meeting Will be Held Shortly to Complete the Organization—Application Will be Made for a Charter.

After the close of the Merchants' meeting last night the Chamber of Commerce of Greater Conneltsville was formed with B. P. Wallace as president; E. W. Horner, treasurer, and W. C. Armstrong, secretary. The constitution adopted provides for the election annually of nine directors, and the following five were elected at last night's meeting: B. P. Wallace, H. T. Crossland, J. A. DeWitt, E. W. Horner and John Duggan. The four additional directors will be elected as the membership grows. Quite a large number were enrolled as members of the Chamber.

Arrangements were made for the Chamber of Commerce to occupy a suite of rooms on the sixth floor of the First National Bank building. This floor of the building is at present unoccupied and the one-half of it will be fitted up for the Chamber of Commerce and the Merchants' Association. The secretary will have a private office where all the business of both organizations will be transacted jointly. The other rooms will be fitted up in a comfortable manner. The rooms will be open during the business hours each day and visitors welcomed.

The Board of Directors will be in session every Tuesday morning of each week at 10 o'clock. The directors will hear all persons who have any matters to present to the Chamber of Commerce, affecting the industrial, commercial or civic interests of the community. It is expected that the citizens generally will take advantage of this feature of the Chamber of Commerce and avail themselves of the opportunity of presenting their views upon matters of vital interest to a successful conclusion. The members of the Chamber last night were of the general opinion that to make the body a successful one it was necessary to strive for the interests of the people in the most useful and effective way and that much will depend upon the community interesting themselves in its welfare.

General meetings of the Chamber will be held semi-monthly on the second and fourth Tuesdays. President Wallace will announce this standing committee in a few days. Some of the questions will be introduced in the near future over the urgent need of immediate action in regard to several matters, including transportation problems and Youghiogheny canalization and legislation. Committees will probably be announced in a few days to take these matters up and report on them at the next meeting of the Chamber.

Application will be made for a charter at once.

POWDER MYSTERY.

Chief Rottler Discovered Can of Rock Explosive Beneath Beer Case at Hotel Kelly.

Chief of Police B. Rottler last evening located a can of rock powder in the rear of the Kelly hotel beneath a beer case. There were about three pounds of powder in the can and several fuses.

How the can of powder came to be located so near the hotel no one knows, but there is a suspicion in the minds of the police that it was placed there with a bad motive. The beer cases are removed almost daily from the rear of the hotel and it could not have been there for any great length of time.

It may be that some minor called at the hotel, and not wishing to carry the can about town with him, placed it beneath the case for safe keeping until he returned for it. The police will hold the can of powder at the police station and continue their investigations into the mystery.

The School Board of New Haven made an investigation of all the doors in the building and found that all were of the swinging variety. No investigation has been made in

THE MERCHANTS BUSY

Hear Report of Yough River Committee's Visit to Washington.

OTHER REPORTS ALSO HEARD.

Aldrich Currency Measure Criticized and Congressman Cooper and Pennsylvania Senators Informed It is Not for People's Best Interests.

A busy session of the Merchants' Association was held last night in Merchants' Hall, presided over by President H. W. Horner. An effort was made to have the matter of holding the annual picnic postponed, and C. W. Cook, Passenger Agent of the P. & L. E., together with C. H. Ulme, Excursion Agent, W. H. Thomas, Local Agent, and J. F. Schmitt, manager of Hotel Royal Park, were present prepared to submit a proposition for holding the annual picnic at Rock Point Park. In as much as arrangements had already been made to hold the picnic at Kennyswood, the merchants decided that it was impracticable to take any further action in this regard.

The following committees submitted their reports: Transportation, Adversity and Hull. Secretary Armstrong presented his formal report of the hearing before the Rivers and Harbors Committee of Congress of the delegation sent from Conneltsville, McKeesport and other towns along the Youghiogheny river to urge the canalization of the Yough. Mr. Armstrong in his report gave a detailed account of the visit to Washington and the result of the trip, saying that the committee had been advised that a meeting would be held next Tuesday to take definite action upon the project. Mr. Armstrong gave it as the opinion of the committee that the Senate Committee will report a resolution asking for a review of the findings of the Board of Engineers. This will mean that the people of Conneltsville will have an opportunity to be heard further and present data in support of the improvement. Mr. Armstrong says that the value to the people of Conneltsville in being represented at the meeting cannot be overestimated, and any benefits derived will be the direct result of that representation.

The committee appointed at the last meeting to consider plans for the organization of a Chamber of Commerce submitted a report endorsing such a plan, but deemed it expedient that the same be organized under its own charter and elect its own officers. An ordinance committee to confer with the Conneltsville and New Haven Councils relative to the passing of ordinances in which the merchants are

TALKATIVE TIWMAN

Comes Very Near Rattling Burgess Soloson With His Flow of Language.

Wallace Twyman was before Burgess Soloson this morning charged with jumping on and off trains, and the Burgess put through a most talkative 15 minutes endeavoring to learn something about the man. Twyman, who takes medicine for epileptic fits, created great amusement in describing the kind of medicine he took and how often he took it, saying it was the "oldest thing" he had ever jumped on trains. Addressing the Burgess as "Mr. Wha, you may call 'em," he started off on a talking streak, and Burgess Soloson had to stand up to suppress him and out of the flow of words. He was dismissed with the injunction to stay off the trains hereafter.

NEWS OF SCOTSDALE.

Three Small Boys Start Out to See World Themselves.

SAFETY OF SCHOOL BUILDING.

Citizens Call on the School Directors to Make Some Changes in the Mill Town Buildings—Jesse Snead Narrowly Escapes Operation for Appendicitis.

SCOTSDALE, March 5.—A good bit of excitement was created on Mulberry street yesterday afternoon when three young men of that street started out to see the world. They were the sons of Matt Carver, W. S. Loucks, Grover A. Bruk and Mrs. Dale and averaged about three years of age, a fact which precludes the possibility of pointing a moral to the evils of Diamond Dick literature or the excessive use of cigarettes. The boys were about home at 11 o'clock and were playing together. Soon after that they were missed, but search was not started for some time later, as it was thought they were at the home of a neighbor. When the discovery was made that the boys were really gone, there was great excitement. After several hours of unsuccessful search, word was sent in from the residence of A. B. Fretts about half a mile west of town that three stray boys had arrived there. The strays proved to be the missing boys and they were brought home amid great rejoicing. The boys had first wandered out in the direction of the White school house and then tacked toward the north landing at the Fretts home. They had traveled nearly two miles in their wanderings and saw a lot of this big world.

Jesse Snead, Superintendent of the Fayette County Gas Company, has been quite ill for a few days and it was feared that an operation for appendicitis would be necessary. A consultation of physicians yesterday resulted in the decision that he did not have appendicitis, hence no operation would be necessary.

The terrible school building fire at Cleveland started a vigorous discussion regarding the means of escape from the Scottdale school buildings in case of fire. The buildings are only two stories with wide stairways with no outside fire escapes and the outside doors of the building open, in instead of out. The latter feature seems to be the most dangerous and came in for the greatest amount of condemnation. A number of citizens called on the Directors and they have announced that the matter will be taken up at once.

FREIGHT PILES UP.

Twenty-Eight Cars on Lake Erie in Smashup at Buena Vista.

Twenty-five freight cars cut loose from a heavy train and ran on to the safety switch, piling up in confusion. No one was injured.

The wreck train was promptly dispatched to the scene, but the debris was not cleared away before evening. The railroad company lost thousands of dollars.

The young men are accused of breaking into the shooting gallery of H. H. Reynolds there and taking three guns. Some of the shot were fired in to Dunbar houses. Window panes and door panels were shattered.

Informations were made against the boys before Justice W. H. Coffey. They all pleaded not guilty today when they were arraigned by Constable Duncan and taken to jail at Uniontown.

OUR NATIONAL DANGER.

Time to Cry a Halt Before Complete Wreck Results.

There are thousands both men and women, who do not like time to rest properly. They rest through laziness and as a result we have an age of indigestion, nervousness, irritability, sleepless nights and morose disposition. One national danger is stomach weakness, due to the strenuous life.

With the discovery of Mifuna tablets which strengthen the walls of the stomach and stimulate secretion of the digestive juices, there is no longer any excuse for indigestion.

Sick men and women, yellow skin and coated tongue are a few of the many distressing results of indigestion that Mifuna never fails to cure.

A. A. Clarke sells Mifuna in 50 cent boxes, and guarantees to refund the money if it does not give complete satisfaction.

FEDERAL INCORPORATION.

Delegation Heard Today by the Interstate Commerce Commission.

WASHINGTON, D. C., March 6.—(Special.)—One of the most notable and representative delegations that has appeared in Washington in a long time was that which was heard today by the Interstate Commerce Commission of the Senate in reference to the Sherman Anti-Trust Act. The National Civic Federation selected the members of the delegation as representative of the mercantile, agricultural, labor and shipping interests of the country.

The delegation urged the enactment of legislation providing for a non-partisan time commission, representing the interests of capital, labor and the public, to make a thorough inquiry into the advisability of instituting a system of Federal license or incorporation, as a condition for the entrance of certain classes of corporations upon interstate commerce and also to investigate the relation to the public interest of the purchase by one corporation of the franchise or corporate stock of another.
